

FAQs

General Questions

1. What types of courts do you build?

We specialize in building a variety of sport courts, including basketball courts, pickleball courts, tennis courts, multi-sport game courts, and custom gym spaces. Whether for residential backyards, community spaces, or commercial facilities, we can design and build the perfect space for your needs.

2. Do you offer custom designs?

Absolutely! Every court we build is tailored to fit your space, budget, and vision. From court size and surfacing options to custom colors, logos, and accessories, we create a court that's uniquely yours.

3. How long does the building process take?

The timeline depends on the project size and complexity. On average, most residential courts take between **2-4 weeks** from groundbreaking to completion, while larger or commercial projects may take longer.

4. Do you handle all the permits and approvals?

Yes! We assist with securing necessary permits and working with HOAs, municipalities, and zoning regulations to ensure your project meets all local requirements.

5. Do you only build outdoor courts?

No, we also design and construct **indoor gym spaces**, custom training facilities, and multi-use recreational areas.

Site Preparation & Installation

6. What kind of space do I need for a sport court?

The space required depends on the type of court you want. We work with a variety of lot sizes and can customize the court dimensions to fit your area while maximizing playability.

7. Does my site need to be leveled before installation?

A level surface is ideal, but if your site has a slope or uneven terrain, we can grade the area and make necessary adjustments to ensure a solid foundation.

8. What kind of base do you use for courts?

We typically install courts over a concrete base, ensuring a durable, long-lasting playing surface. For specific sports, we can also recommend alternative base options.

9. Can you build on an existing concrete slab or driveway?

Yes! If your existing slab is in good condition, we may be able to resurface or install directly over it, saving time and cost. We'll assess the condition to determine the best approach.

10. How do you handle drainage issues?

We design our courts with proper grading and drainage solutions to prevent water buildup and ensure longevity.

Materials & Maintenance

11. What surface materials do you use on Outdoor Courts?

We offer a range of premium playing surfaces, including Sport Court™ Premium court surfaces, acrylic sport coatings, Sport Court™ Premium court surface options for enhanced performance and safety and a low maintenance longevity option..

12. How do I maintain my sport court?

Maintenance is minimal! Regularly sweeping debris, occasional power washing, and inspecting for wear and tear will help keep your court in great condition.

13. Can I get a custom logo or court colors?

Yes! We offer **custom court colors, lines, and even logos** to give your court a personalized touch.

Budget & Pricing

14. How much does a sport court cost?

Pricing varies based on court size, materials, customizations, and site preparation. We provide personalized quotes after evaluating your space and needs.

16. Can I phase my project to spread out costs?

Yes! We can plan a phased installation approach, starting with the essentials and adding features over time.

Other Questions

17. Do you install lighting for night play?

Yes! We offer professional-grade LED court lighting for extended playtime.

18. Can I add fencing or netting around my court?

Absolutely! We provide fencing, rebound walls, and containment netting options to keep balls in play and enhance your court's functionality.

19. Do you build courts for schools, HOAs, and municipalities?

Yes! We have extensive experience working with schools, HOAs, and cities to design and install courts for community use.

20. How do I get started?

It's easy! Contact us for a consultation, and we'll walk you through the design, budgeting, and installation process to bring your dream court to life.
